SERVING THE
METALOCK
ORGANISATION

**A Worldwide Repair Organisation
serving the Marine and Industrial Sectors**

All Metallock companies are widely experienced in the cold mechanical repair to damaged castings using the Metallock process. They may also provide additional marine or industrial repairs and maintenance facilities. Some companies have been appointed agents and service engineers by the original manufacturers. Their services will cover electrical, electronic, diesel engines and air conditioning plant etc.

The facilities can vary from company to company and are continuously being expanded.

The following list, illustrates the extent of services currently available from each member company.

- Metallock repairs
- In situ Machining
- Leak sealing (pipes, valves, flanges etc.)
- Dry-dock facilities
- ▲ Welding
- △ Electrical repairs
- ◆ Machine shop facilities
- ◇ Bearings re-metalled
- + Reconditioning of Diesel Engine Components
- ◀ Brush Plating

BEWARE

- Only Companies listed on our Website are Members of The Metallock International Association.
- Only these Companies use the unique Metallock material which is manufactured exclusively for Members.
- Only Member Companies' engineers have been trained to the high standards demanded by The Metallock International Association

ALWAYS ENSURE YOU USE A METALLOCK MEMBER COMPANY.
